

Cade Gollob

Software Engineer

WA • (360) 807-3842 • cadegollob@gmail.com • [LinkedIn](#) • [GitHub](#) • portfolio.com

I am a utility and performance focused software engineer with a passion for health and fitness. Throughout my experience, I have developed a flexible mindset with the ability to see different aspects of a problem and explore alternative solutions to construct an effective solution. My passion for software engineering is driven by my desire to help elevate people's health and happiness.

SKILLS

Languages | JavaScript, HTML, CSS, Python

Libraries and Frameworks | Node.js, Express.js, React, Django

Database | MongoDB, Mongoose, PostgreSQL, NeonDB

Other | EJS, GitHub, Postman

PROJECTS

WordWise | [GitHub](#) - [App](#) | MERN Full-Stack App

HTML, CSS, JS, MongoDB, Mongoose, Express, React, Node

- Consistent and responsive mobile-first design with SemanticUI.
- Connected to 3rd party API with Axios requests, allowing user access to multiple search functionalities.
- Full CRUD of MongoDB database through Mongoose connection allowing user specific interactions .

ActiveInsights | [GitHub](#) - [App](#) | MEN Full-Stack App

HTML, CSS, JS, MongoDB, Mongoose, Express

- Created and designed a full-stack web app following full RESTful routing and allowing user access to full CRUD functionality.
- Front end rendering done with EJS and partials to make DRY code.
- Ability to store user input in MongoDB database using embedded schema, with Mongoose.

Meridio | [GitHub](#) - [App](#) | Django Full-Stack App

Python, PostgreSQL, Django, HTML, CSS

- Group project, practicing a centralized workflow approach with frequent commits.
 - Utilizes MVT architecture to provide a seamless user experience.
 - Data operations performed through NeonDB, allowing full CRUD across a combination of models.
-

RELEVANT EXPERIENCE

General Assembly | Software Engineering Fellow | Remote

(05/2023)-(08/2023)

- Full-stack software engineering immersive student.
 - Completed 450+ hours of expert-led instruction and self-paced learning.
 - Focused on product development fundamentals and OOP(object-oriented programming).
 - Learned MVC frameworks and data modeling.
 - Gained experience in a team collaboration environment.
-

PROFESSIONAL EXPERIENCE

Glassblower | Central Glassworks | Centralia, WA

(05/2022)-Current

- Collaborated on a team of three glassblowers, practicing effective communication to ensure smooth workflow and production of glass artworks.

- Entrusted with all shop operations including, sales, scheduling, presentation, opening and closing, and performing all duties efficiently resulting in efficient shop management.
- Instructed student classes and taught introductory glass blowing methods while fostering a safe and fun environment.

Rope Access Technician | ADS Contractors | Seattle, WA

(06/2020)-(03/2022)

- Adapted riggings to different buildings based on available structures and anchors, ensuring safe task completion.
- Demonstrated effective troubleshooting of unforeseen challenges while conducting maintenance tasks, such as contract and client request discrepancies, resulting in efficient task completion and satisfied customers.
- Directed a team of rope access technicians by coordinating tasks, assigning responsibilities, and implementing efficient work processes, resulting in increased productivity and improved project outcomes.

EDUCATION

Software Engineering Immersive | General Assembly | Remote

(08/2023)

Associates of Science(Physics) | Centralia College | Centralia, WA

(06/2014)
